SUMMARY

MCA student skilled in backend engineering, cloud technologies, and data-driven applications. Proficiency in Python, DSA, with hands on project experience working with APIs and AI-powered workflows.

TECHNICAL SKILLS

Languages: Python, TypeScript

Frameworks: Node.js

Libraries & Tools: Docker, Git, Postman, Langchain, HuggingFace, Scikit-learn

Cloud & Databases: Firebase, Google Cloud Platform, MySQL

Core Skills: Data Structures & Algorithms, REST APIs, Agile Development, Cloud Deployment, Containerization, Version Control

PROJECTS

Axium AI – an AI-powered Online Learning Platform

AI integrated Fullstack

2025 – Present

Python, TypeScript, GCP

- Built a scalable real-time learning platform with integrated AI Q&A.
- Reduced response latency by implementing cloud-based storage and automated data pipelines.
- Designed and deployed an RAG-based chatbot, increasing student query resolution accuracy by **50%**.

EZBooks

Ecommerce Full Stack

February 2025 – June 2025

PHP, JS, HTML, CSS, MySQL

- Created a marketplace for academic books enabling students to buy and sell used materials.
- Developed secure user authentication and optimized REST API endpoints and SQL queries for faster transactions.

EDUCATION

TKM College of Engineering

MCA

Kollam, Kerala

2024 – 2026 (Expected)

Rajagiri College of Management and Applied Sciences

BCA

Ernakulam, Kerala

2020 – 2023

CERTIFICATIONS AND ACHIEVEMENTS

- INKRIT-3.0 Hackathon – Top 4 Finalist (2025)
- VERSION 2025 – NIT Trichy Hackathon Participant
- Cloud Computing – NPTEL (IIT Kharagpur)
- Machine Learning with Python Workshop (2024)

SOFT SKILLS

Collaborative, strong in problem-solving, debugging
