SUMMARY

MCA student skilled in backend engineering, cloud technologies, and data-driven applications. Proficiency in Python, DSA, with hands-on project experience working with APIs and AI-powered workflows.

EDUCATION

TKM College of Engineering <i>Master of Computer Applications (MCA)</i>	Kollam, Kerala 2024 – 2026
Rajagiri College of Management and Applied Sciences <i>Bachelor of Computer Applications (BCA)</i>	Ernakulam, Kerala 2020 – 2023

EXPERIENCE

Research and Development Intern <i>WSAI, IIT Madras</i>	January 2026 – Present Chennai, India
- Developed an automated system to grade physical worksheets using deep learning models - Implemented image processing techniques to correct distorted photos taken from mobile cameras - Built a tool for teachers to submit worksheet photos and receive instant results via a messaging API - Improved the detection of pen and pencil markings to ensure accurate grading for students in rural areas	

CERTIFICATIONS AND ACHIEVEMENTS

INKRIT-3.0 Hackathon: Top 4 Finalist (2025)
VERSION 2025: NIT Trichy Hackathon Participant
Cloud Computing: NPTEL Certification (IIT Kharagpur)
Machine Learning with Python: Hands-on Workshop Certification (2024)

PROJECTS

Axiom AI <i>Python, TypeScript, Google Cloud Platform</i>	2025 June – 2025 December
- Built a scalable real-time learning platform with integrated AI Q&A. - Reduced response latency by implementing cloud-based storage and automated data pipelines. - Designed and deployed an RAG-based chatbot, increasing student query resolution accuracy by 50%.	
EZBooks <i>PHP, JavaScript, MySQL, HTML/CSS</i>	February 2025 – June 2025
- Created a marketplace for academic books enabling students to buy and sell used materials. - Developed secure user authentication and optimized REST API endpoints and SQL queries for faster transactions.	

TECHNICAL SKILLS

Languages: Python, SQL (MySQL)
Libraries & Tools: Docker, Git, Postman, Langchain, HuggingFace, Scikit-learn
Cloud & Databases: Google Cloud Platform, MySQL
Core Skills: Data Structures & Algorithms, REST APIs, Agile Development, Cloud Deployment, Containerization, Version Control

SOFT SKILLS

Collaborative team player, strong in problem-solving and debugging.
